8 minutes and 20 seconds

This sounds like a strange question, but think about it. Sunlight travels at the speed of light. Photons emitted from the surface of the Sun need to travel across the vacuum of space to reach our eyes. The short answer is that it takes sunlight an average of **8 minutes and 20 seconds** to travel from the Sun to the Earth. Apr 15, 2013

what is the purpose of life?

All Videos Images Books News More Settings Tools

Human Snakes Sloth Turtle Squirrel Shark Cat Raccoon

Your life purpose consists of the central motivating aims of your life—the reasons you get up in the morning. Purpose can guide life decisions, influence behavior, shape goals, offer a sense of direction, and create meaning. For some people, purpose is connected to vocation—meaningful, satisfying work.

God, in monotheistic thought, is conceived of as the supreme being, creator, and principal object of faith. **God** is usually conceived of as being omnipotent (all-powerful), omniscient (all-knowing), omnipresent (all-present) and omnibenevolent (all-good) as well as having an eternal and necessary existence.

- Eccl. 2:24; 5:18-19; 9:7-9
- "But seek first the kingdom of God and his righteousness, and all these things will be added to you" (Matt. 6:33).

“Come, everyone who thirsts, come to the waters;
and he who has no money, come, buy and eat!
Come, buy wine and milk without money and without price.

Why do you spend your money for that which is not bread,
and your labor for that which does not satisfy?
Listen diligently to me, and eat what is good, and delight
yourselves in rich food.

Incline your ear, and come to me;
hear, that your soul may live;
and I will make with you an everlasting covenant, my
steadfast, sure love for David.

”

— Isaiah 55:1-3
